Rupesh K. Singh

Web Developer

About Me

A passionate and dedicated full stack developer with expertise in creating intuitive and user-centered digital experiences. I love self-learning and have a strong curiosity for new languages. Recently, I learned Three.js, a JavaScript library for 3D designs.

Experience and Project

Projects:
I have created over 20 small and big projects along my coding journey. You can find it on my website (www.srupesh.com).

Freecodecamp Courses:
- Responsive Web Design
- Javascript Algorithms and Data Structure
- Front End Development and Libraries
- Data Visualization Certification
- Relational Database
- Back End Development and APIs

In 2024 I started learning these courses where I completed more than 30 projects and achieved certification for these courses.
Skills Learned: HTML, CSS, JAVASCRIPT, React, Redux, MongoDB, Express, PostGresql, SQL, Github, Bash Scripting etc.

Project : Smart Dairy
Bhantabari-08, Mahottari, Nepal (2023)
I built a Smart Dairy software, which uses Java Framework as frontend and apache poi in backend to store data offline. Some of its features are storing customer data, notifying owner about milk collection, customer payment notification etc.

Page Designer | Janakpur Today Media Group
JanakpurDham, Nepal (2020-2022)
As a Page Designer, I used to design news paper including articles, advertisement, while making it engaging and attractive.
